Race School 2009

To; All Members

Next Sunday we will be conducting our annual race school for new drivers. This is a requirement for all new drivers in order to gain their club level license. The course will be approximately 2-2 ½ hours of classroom followed by a track walk and then we will do the on track session after lunch. Due to the weather and full track availability, the course will be modified based on the track conditions. As of this weekend, there is more than enough track to perform the school, however the full track may still not be completely clear. Please pass the word along.

There is “no” charge for the classroom and everyone is welcome so you can invite “anyone” who has an interest in karting. Club memberships must be paid for those who wish to do the track portion of the school. If you don’t have your kart ready, you still should plan on doing the school, as we will be charging for individual sessions too get caught up.

To all existing members, we will need help with the on track session as we have many new members who will be attending this season.

SSKC Race School

- Sunday April 19th, Classroom starts at 10am sharp!!!!!!
- Location is at the track
- Track session @ 1:00pm
- Seniors and Juniors will be separated after 2nd on track exercise is completed.
